

Dear Senator Harris,

As an important organization that serves Nevada County, I am honored to express my support for the Nevada City Rancheria Nisenan Tribe in their quest to regain their federal recognition. As you may know, the United States promoted a federal policy of “Indian termination” in the mid 1900s. Congress passed several laws, including the California Rancheria Termination Act of 1958, focused on terminating Rancherias and removing their statuses as federally recognized Native American Tribes. In the 1970s these terminations were deemed illegal and over 30 Tribes have since been restored. Because the Nevada City Rancheria remains in a state of termination, they now rely on you to put forth legislation to restore their status as a federally recognized Tribe. It is only through the restoration of their Tribal sovereignty and self-determination that the Nisenan can rightfully protect and preserve their culture for future generations. Please prioritize righting this injustice.

Sincerely,

Dear Senator Feinstein,

As an important organization that serves Nevada County, I am honored to express my support for the Nevada City Rancheria Nisenan Tribe in their quest to regain their federal recognition. As you may know, the United States promoted a federal policy of “Indian termination” in the mid 1900s. Congress passed several laws, including the California Rancheria Termination Act of 1958, focused on terminating Rancherias and removing their statuses as federally recognized Native American Tribes. In the 1970s these terminations were deemed illegal and over 30 Tribes have since been restored. Because the Nevada City Rancheria remains in a state of termination, they now rely on you to put forth legislation to restore their status as a federally recognized Tribe. It is only through the restoration of their Tribal sovereignty and self-determination that the Nisenan can rightfully protect and preserve their culture for future generations. Please prioritize righting this injustice.
